

Silk Flower RENTALS

Silk Flower Rentals provides service plans to businesses for renting displays of artificial flowers (built into modern vases with our clear artificial water) at reception desks, foyers, boardrooms, etc. They're so realistic, you can hardly tell the difference from the fresh flowers alternative, except when you look at our low, low pricing structure!!!

Ours are a fraction of the price of fresh flowers!

The flowers themselves are the most authentic available, are custom-made to suit office colouring and styles, and are rotated periodically so that you enjoy a change of scenery!

We would like to supply you with a trial (no-obligation) sample!

There are hundreds of variations in the range, in all shapes, sizes and colours, some of which are sampled on this brochure, while others are shown on our website.

Should you decide to go ahead with us, please note that we **DON'T require a contract**. Hopefully you will find that our cost effective variety provides you with a great reason why not to use the fresh flower alternative.

Please call us on one of the numbers below and we'll deliver!
